N.F. Codfish.

The fish business along the water front is quiet as is usual at this season of the year. Stock in warehouses are not large and it is almost impossible to secure certain cures for particular markets, for this reason the steamer due to load for Brazil this month will probably be delayed before sufficient supplies can be secured. Stock are not large and it looks as if there will not be sufficient to carry into the new season. European markets are reported to be steady with a tendency for better values later on. Stock in Oporto are heavy and consumption this week has been disappointing. The Lenten season is late this year so that present stocks will have time to go into consumption and stabilize markets for further improvement. The outlook for the balance of the season is said to be favorable for better values for the balance of stocks warehoused for export.—St. John's Trade Review. N .F. Codfish. John's Trade Review.

The Seal Fishery.

Halifax is planning to send two steamers to the Gulf to prosecute the forthcoming seal fishery. Preparations have been jointly undertaken by J. B. Mitchell of Halifax and the Marden Wilde Corporation. Should success attend this year's venture, it is expected that probably two more steamers will be added to the fleet next year. A party of 100 Newfoundland sealers have been engaged to join the steamers at Louisburg and Ingonish. Moving pictures of action views on the ice are to be taken by special apparatus on board one of the steamers to be shown in Halifax theatres on completion of the voyage.

Both ships will land their catch to the Marden Wilde Corporation, North Sydney.

YONE ARRIVAL SINCE SATURDAY

NETTERS AND OTHER BOATS IN PORT.

Boat Margaret D., with about 3000 pounds of mixed fish, was the only craft reported here today, having held her fare over from Saturday. Due to bad weather off shore, none of the gill netters and draggers have been out since Saturday and fish is scarce today. The gill netters fishing towards Plymouth are out hauling gear today, but those fishing around Jeffries are tited up in port. tied up in port.

with our fish as a wholesome commodity. Spain is reported to have shown further weakness on account of exchange difficulties all other European markets are fair with the exception of Oporto, where on account of large quantities of poor quality fish prices are inclined to weaken. The news from Southern Brazil is bad, but Northern Frazil is fair with heavy orders booked for Newfoundiand export.
